Safe Work by SRR Employees Leads to Another \$500 to United Way

AIKEN, S.C. (January 21, 2011) – Members of Savannah River Remediation's Construction SAFE-T group recently presented a \$500 check to the United Way of the Midlands in recognition of SRR employees working the month of October 2010, without a lost day of work due to injury.

Based on SRR's employee-based safety program, employees are provided opportunities to select a United Way-member charity for each month worked without an injury and the company donates \$500 to that charity.

Savannah River Remediation is the Liquid Waste contractor for the U.S. Department of Energy at the Savannah River Site. SRR is composed of a team of companies led by URS Corp. with partners Bechtel National, CH2M Hill and Babcock & Wilcox. Critical subcontractors for the contract are AREVA, Energy Solutions and URS Safety Management Solutions.
